**(Zurich, Switzerland)** - Systemorph Ltd., a Swiss based provider of innovative risk and data management solutions, announced today the appointment of two new senior executives to strengthen its leadership team.

Dr. Pedro Fonseca is joining the company as head of the newly formed Business Solutions organization and Member of the Executive Board. In this role, Pedro will lead the team responsible for delivering solutions tailored to our clients' business needs. Pedro is an expert in risk and data management with 11 years experience in the financial industry. Before joining Systemorph, Pedro headed the Risk Analytics & Reporting team at SIX, the Swiss financial infrastructure provider. Previously, he has held various positions in the hedge fund, private equity, and risk data industries. Pedro holds a PhD in theoretical Physics.

Jörg Müller is joining Systemorph as new Head of Sales and Marketing and Member of the Executive Board. In this role, Jörg will be responsible for driving the company’s brand and growth strategies and for building up its client development organization. Jörg joins Systemorph from risk solutions provider Risk Management Solutions (RMS) where he held various senior leadership roles in sales and services and headed up the local branch office in Zurich as managing director. Before joining RMS, Jörg

worked as actuarial analyst in the risk management department of Hannover Re. Jörg holds a MSc in geophysics and an MBA in international management.

“Systemorph is proud to welcome Jörg and Pedro to our executive team,” says Roland Bürgi, CEO and founder of Systemoprh. “Their deep experience and understanding of how best in class data management creates value for risk carriers and financial services firms will be an invaluable asset as we expand our business.”

**Über die Organisation:**

*Systemorph is a Zurich-based software and services firm founded in 2011. A thought leader in data science and provider of innovative, customizable and ultra-rapid development data management solutions, Systemorph offers simple yet powerful solutions for risk managers, actuaries, portfolio managers, quantitative risk analysts and others – to structure, synthesize, communicate and control advanced business domain models and the data populating them.*
